SEAT**

Radically fast rod tapers are what the Magnite rods are all about. They are the street fighters of the Rovex range that give nothing to fish, forcing them to swim harder and tire quicker. The nine models range from 6kg to 24kg line class, all built on graphite composite blanks. Each rod is fitted with tough Fuji reel seats and Fuji guides.

Code	Model	Ft	Metre	Pcs	Class
16071	Magnite RMA 6201 XTS6	6'2"	1.88m	1/P	10kg
16072	Magnite RMA 6601 XTS6	6'6"	2.00m	1/P	6kg
16073	Magnite RMA 6601 XTS8	6'6"	2.00m	1/P	8kg
16074	Magnite RMA 7001 XTS6	7'	2.10m	1/P	6kg
16075	Magnite RMA 6201 XTO6	6'2"	1.88m	1/P	6kg

ROVEX® *Air Strike*

Air Strike rods are a caster's delight designed to improve distance and accuracy. Rovex's casting rod engineers are obsessed by the simple principle: you catch more with a stealthy approach that launches your lure attack from further away. Based on this theory our engineers created Air Strike rods using the latest carbon graphite rod technology and exquisite designs proven to increase casting distance. Refined blanks and tapers, high-grade braid-friendly AC guides, ergonomic fittings and crisp actions aid accuracy, making the execution of consistently perfect casts easy. If your lure fishing demands firing casts with the accuracy of a sniper and you appreciate performance tackle, look for the metallic red blanks of the Rovex Air Strike series.
